CONFIDENTIAL INFORMATION

Correcting Missing Customs Shipment in GTM AES due to Errors

Missing AES Eligibility and line_count attributes

Prerequisite

For an AES Customs Shipment to automatically generated two attributes are needed in the delivery:

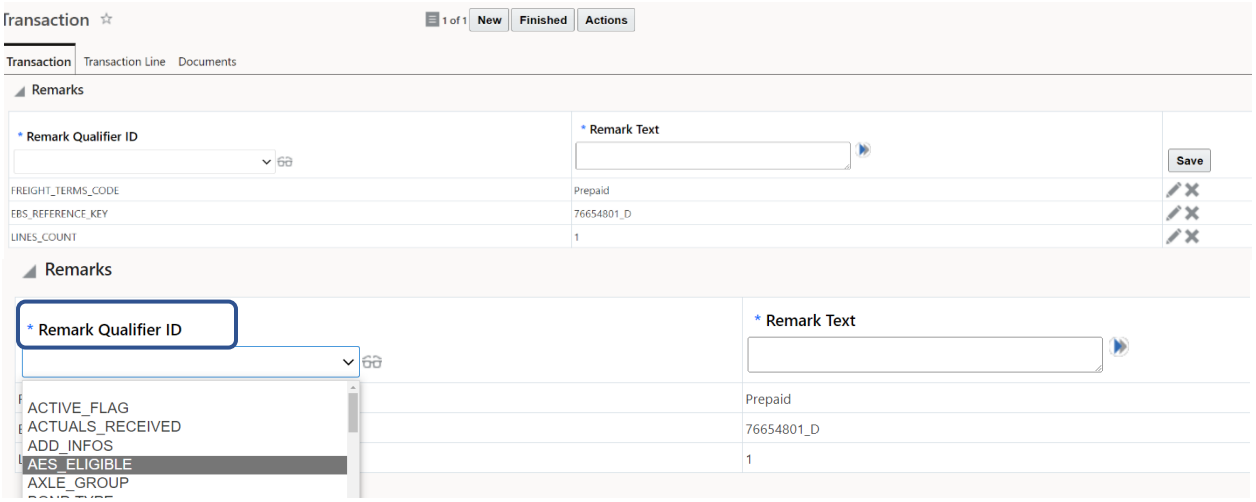
(A) AES Eligibility
(B) Line_Count (number of lines in the shipment)

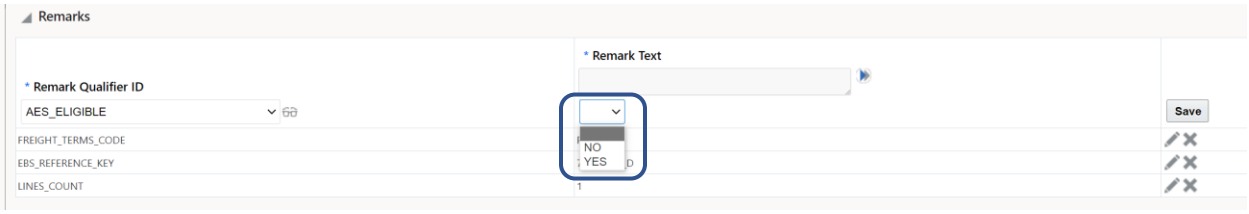
Errors – No Customs shipment found in GTM AES

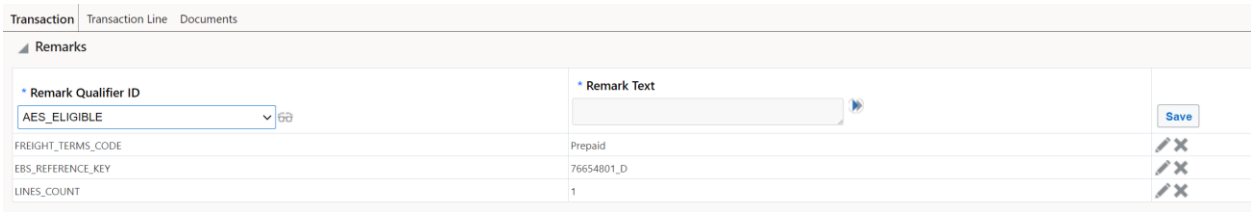
CORRECTIONS

A) Missing AES Eligibility

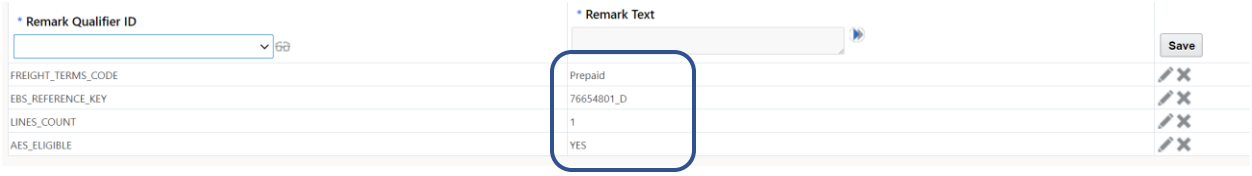
1. In GTM at the Remark Qualifier ID dropdown menu select AES Eligibility
2. Select Yes at Remark Text
3. Click Save



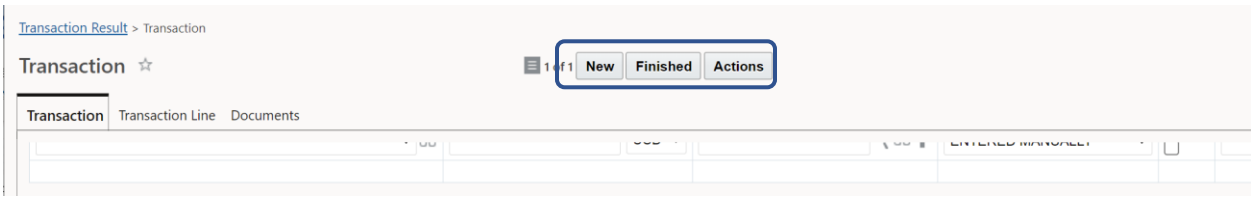




AES Eligibility is added.



✓Don't forget to click on FINISHED at the top!



B) Missing Line_Count

Follow the same steps as (Missing AES Eligibility) but for the line_count attribute.

Manually push for Customs Shipment Step

After Finished you'll be prompted with this screen below

1. Check the box
2. Click Actions
3. Select ZRB Build Customs Shipment
