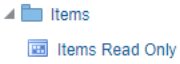
WEIGHT RESEARCH

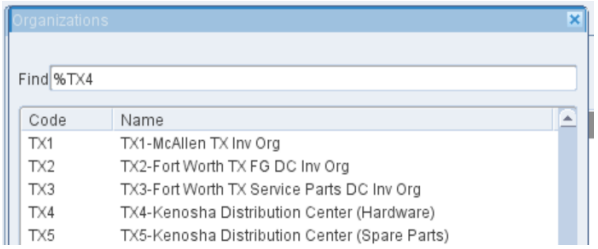
How to locate the weight of an item if the weight is missing on shipping documents.

Step 1: Navigate to Oracle ERP > Master Warehouse Ops or Warehouse Superuser

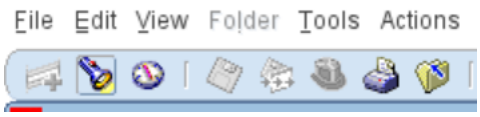
Step 2: Select Items > Items Read Only



Step 3: Enter the respective organization and Click OK.

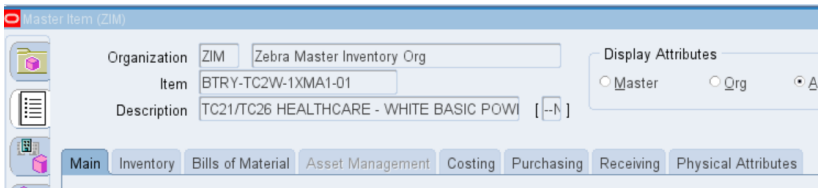


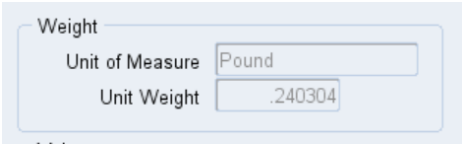
Step 4: Click on the Flashlight to search for the item.



Step 5: Enter item # and click find

Step 6: Click on Physical Attributes





Step 7: Weight is displayed in pounds, ensure is converted to kg if used to generate Shippers Declarations.
