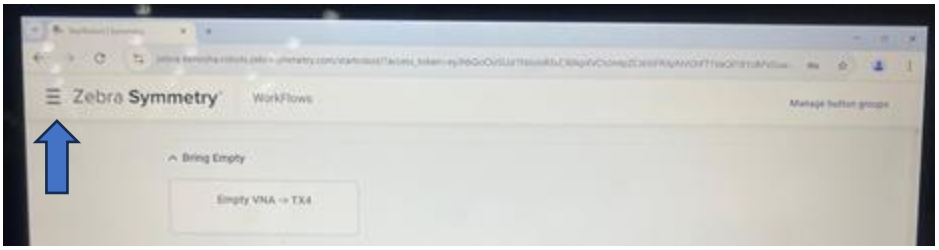
1. Overview

This document is intended to provide an overview of the operation of the methods to call the Fetch.

2. Set Up (Admins Only)

1. Proceed to the Zebra Symmetry login screen.
2. Enter your login credentials.
3. Click on the main menu, and the three lines will be on the left-hand side.



4. In the open menu list, click on the ‘switch to workflows’ label.
5. Click anywhere in the gray area to close the side bar.
6. Click on the ‘Manage Button Groups’ in the top right corner of the page.
7. Click on the magnifying glass to search for the desired button name.

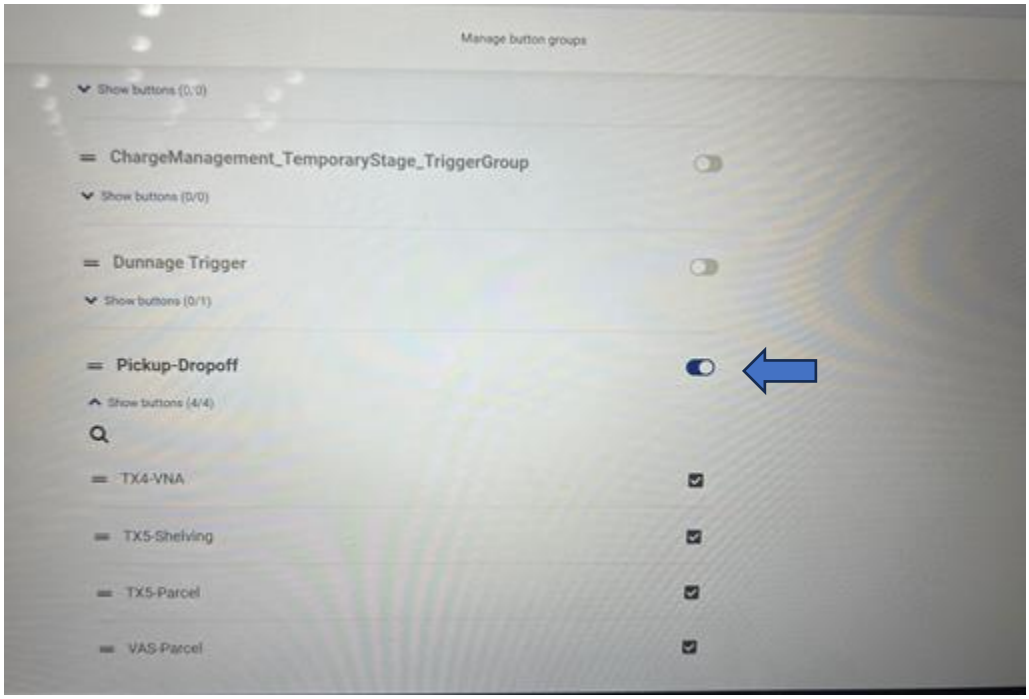
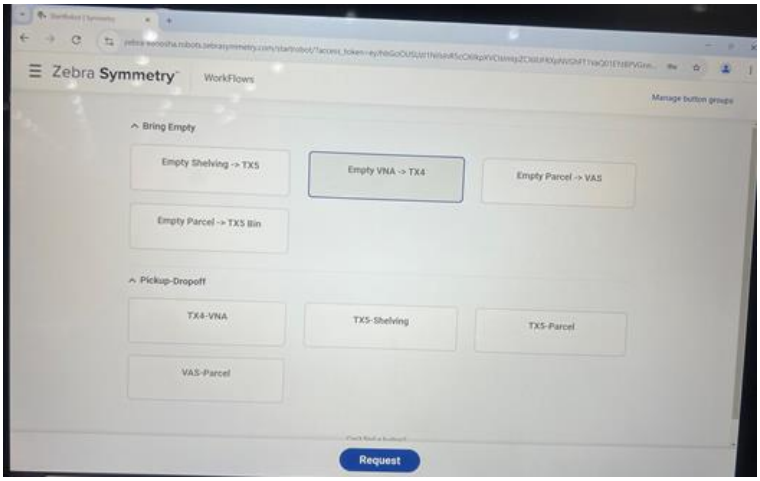
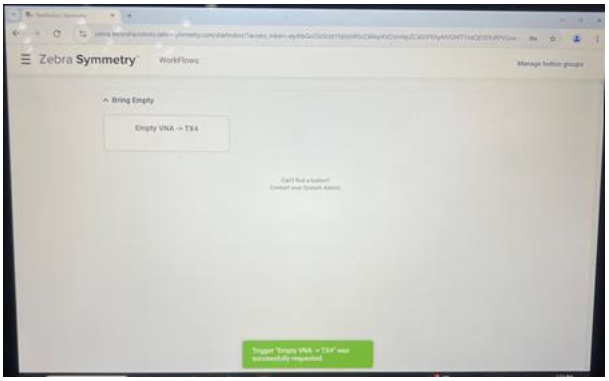
Verify revision number before use.

8. To activate the desired button, click on the pill shape slider icon.



9. Click the back arrow in the top left corner to return to the home page.
10. To use the selected button, select the button, then click on the request button that appears at the bottom of the screen.





3. Safety

1. Remember that the Robot is a Power Industrial Vehicle; therefore, you must follow the appropriate safety protocols when working around it.
   A. Remove any obstruction in the work area.
   B. When the Robot is in motion, give ample space even though the Robot has sensors to avoid collisions.
   C. Periodically check for damage to the Robot.
2. Understand the Robot's capabilities and limitations.
3. Adapt to the Robot's pace.
4. For Any issues or concerns, seek the Supervisor's assistance.

4. Inbound

1. Follow the normal receiving process.
2. Determine if you would be utilizing the cart as Pack1.
3. If using the cart, select the appropriate workflow on the Zebra tablet.
4. Follow the normal putaway process.
5. Once the putaway is complete and the cart is empty, manually move to the assigned location.

5. Kitting

1. Follow the normal Kitting process.
2. If the kitted order is shipping via parcel, place the product on the cart and send it to the parcel area.
3. Select the appropriate workflow.

6. Picking

1. Follow the normal picking process.
2. When picking, decide if you will pick to the cart, a case/box, or a pallet.
3. If you pick to the cart, put the product on the cart and send it to the parcel area.

   ✓ Ensure the product was dropped correctly to a Cone; otherwise, it will cause issues with manifesting.

7. Parcel

1. When receiving a product on a Fetch Cart, ensure the product belongs in the parcel area.
2. Verify the product against the PCR.

3. Manifest the Delivery.
4. If unable to Manifest, seek Lead/Supervisor for assistance.
   - ✓ If unable to manifest, it is likely the product was not correctly dropped to a cone or not completely picked.

8. Trash

1. If using a Robot to assist with trash, ensure the CartConnect has the appropriate crate.
2. If the crate is full, select the appropriate workflow.
3. The cart will proceed to the compactors.
4. When done emptying the crate, ensure the crate is in its designated location.
