Picker
Packer
Quality
PIT Operator
Shipping Operator (Manifesting)
Shipping Operator (Actual Shipment/ Dock Operator)
Start
Oracle pick release
Priority release?
(Scheduled) Daily Pick Release
Manual Pick Release
Release successful?
Set priority in Warehouse control board
Discrepancy Resolution Process
Set tasks to executable status
Monitor progress and steer team
Create dock door appointment
Sign in on equipment
Perform Pick Tasks
Picking discrepancy?
Physical move to drop zone
Trigger label in Oracle MWA
Pick Drop label
Stick label to items, drop LPN into correct locator
LTL or Parcel?
Single LPN or multiple LPN?
Single LPN Parcel Process Flow
Multiple LPN Parcel Process Flow
Box/product damage
Kenosha Outbound Box & Material Damage Disposition Flow
All lines are staged?
Mark pallet with white cone
Place Shipping Contents and necessary DG labels on top of the pallet
Splitting Process
LPN change necessary?
Consolidation Process
Apply DG and cover labels if necessary
Overpack the items
Build the carton
Items needing overpacking present?
Check OK?
Count Discrepancy
Picking Discrepancy Resolution Process
SKU and Qty verification
Shipset validation, escalate to lead if broken, error resolution
Hold validation, escalate to lead, quarantine in the area
Exception on report?
Check reported exceptions on PCR
Pull from the location indicated on PCR and move to Packing lanes
System generated Pack Consolidation Report (PCR) at last drop
Quality Audit Process
Quality according to standard?
Quality Resolution Process
Mark pallet with green cone
Pallet wrapping procedure
Assign W&D to LPNs for Delivery
Apply Shipping Contents and DG labels to the wrap
Physical & Staging Move to assigned Staging Lane location
Pallet needs shrink wrapping?
Entire delivery is staged?
Place red cone, wait for entire delivery to be staged
Packing process completed, PCR report is checked
Non-serialized items
Multisource Country of Origin registration
Back-End Consolidation required?
Consolidate Deliveries
Export shipment?
AES filing
Other Customer/ Country req?
Process Customer/ Country Specific Requirements
GTM Offline Export Shipment?
Add ITN Number to Delivery
Carrier Labels
Infoship process/ call
CU/PS/BOL
Generate & apply Shipping documents
Affix Carrier labels & Documents to shipment
Place appropriate carrier cone
Trip for the carrier exists?
Add to the existing trip for the carrier
Create the trip based on the first delivery ship method
Unload a pallet
Pallet needs unloading
Discrepancies?
Dock door loading process
Pallet is missing
Give warning, prevent from loading completion
Investigation and resolution of the missing pallet
Complete the loading process
Wrong pallet
Warning message
Place the pallet back in the staging lane
Ship Confirm By Trip from Dock Door
Delivery on hold?
Warning message, Ship Confirm failure
Investigate and remove from hold
Ship Confirm is successful
End
Yes
No

Single LPN Parcel (Current State)

DC Ops

Warehouse Planner/ Picking Supervisor

Start → Oracle pick release → Priority release? (Yes / No) → (Scheduled) Daily Pick Release → Manual Pick Release → Release successful? (No / Yes) → Set priority in Warehouse control board → Set tasks to executable status → Monitor progress and steer team

Discrepancy Resolution Process → Resolved → Set priority in Warehouse control board

Picker

Sign in on equipment → Perform Pick Tasks → Picking discrepancy? (No / Box/product damage)

Physical move to drop zone ← Kenosha Outbound Box & Material Damage Disposition Flow

Trigger label in Oracle MWA (Pick Drop label) → Stick label to items, drop LPN into correct locator → LTL or Parcel? (Parcel / LTL)

LTL → LTL Process Flow

Single LPN or multiple LPN? (Multiple / Single) → Multiple LPN Parcel Process Flow

Packer

SKU and Qty verification → Check OK? (Yes / Box/product damage / Count Discrepancy)

Box/product damage → Kenosha Outbound Box & Material Damage Disposition Flow

Count Discrepancy → Picking discrepancy Parcel → Discrepancy resolved Parcel

Items needing overpacking present? (Yes / No)

Yes → Build the carton → Overpack the items → Apply DG, except UN3481, and cover labels if necessary → Capture dims and weights on Pick Drop Audit label

No → Apply DG, except UN3481, and cover labels if necessary

Shipping Operator (Manifesting)

Assign W&D to LPNs for Delivery → Multisource Country of Origin registration (Non-serialized items)

Export shipment? (Yes / No) → AES filing → Other Customer/ Country reqs? (Yes / No) → Process Customer/ Country Specific Requirements → GTM Offline Export shipment? (Yes / No) → Add ITN Number to Delivery → Infoship process / call (Carrier Labels) → Generate & apply Shipping Content labels and Z-Slip (Shipping Labels) → Affix Carrier labels & Documents to shipment → UN3481? (Yes / No) → Request a PDF version of PCR → Sort the packages on appropriate carrier pallet → Staging Move to assigned Staging Lane locator

Shipping Operator (Actual Shipment/ Dock Operator)

Load Truck/Trailer → Process Ship Confirm For Delivery → End

Revision	Documented Change	Author	Date
01	Original Issue	P. Eroshenko	6/6/2023
02	Added PTO Kitting OB Flow	P. Eroshenko	7/12/2023
03	Added a reference to Kenosha Outbound Box & Material Damage Disposition Flow	P. Eroshenko	7/19/2023
04	Removed the PCR generation as a step (made it a document),Added additional connector from Check OK for PTO Operator, incorporated discrepancy resolution (PTO kitting), moved the LPN merge transaction to be later in the process to follow verification (PTO Kitting), included COO update (PTO Kitting), removed Multi-Source registration from Shipping Coordinator (PTO Kitting), moved generation of shipping labels after Info-ship call (Parcel OB Flow), added weight and dims capture for Parcel shipments (PTO Kitting), added transportation scheduling (Standard OB Flow, PTO Kitting).	P. Eroshenko	7/19/2023
05	Added additional process steps for LTL process (Packer: decision node for PCR availability, Shipping Contents printing, and carton count entry, Quality: added quality assurance for pallet contents); incorporated a process flow for sealed full pallets into the OB LTL Flow; removed the Shipping Contents generation from the PIT operator and replaced it with apply Shipping Contents label; switched the pallet wrapping and dimensions capturing in order for LTL flow; added the case count entry to LTL instructions.	P. Eroshenko	1/11/2024
06	Rewrote Single LPN, Multiple LPN Parcel, and LTL processes to accommodate batch ship-confirmation and nest the process flows on a single page to reduce the navigation burden	P. Eroshenko	5/29/2024
07	Updated the shape and wording of the Picking Dicrepancy sub-process reference blocks across the document, revised and updated the structure and content of the Picking Dicrepancy Resolution Process Flow.	P. Eroshenko	11/22/2024
