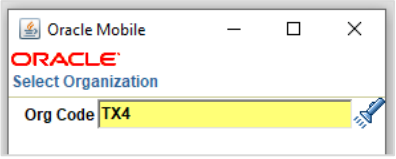
– Stage Move

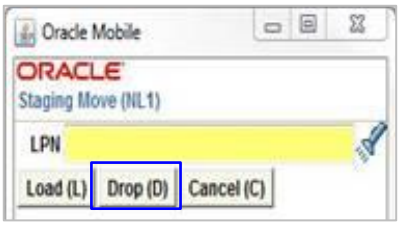
Once packing for a specific Delivery has been completed, the LPNs can be 'Stage Moved' to free up the Consolidation Locator.

Step 1: Using the Mobile Application, navigate to 'Packing'-> 'Staging Move'

Step 2: Enter the correct Organization and press 'Enter' on the keypad



Step 3: In the LPN field, scan the LPN and click on '**Drop'**



Step 4: Scan the 'Stage Move' locator into the 'Confirm' field

The 'Stage Move' locators are the locators assigned to the Staging Lanes These are part of the following subinventories:

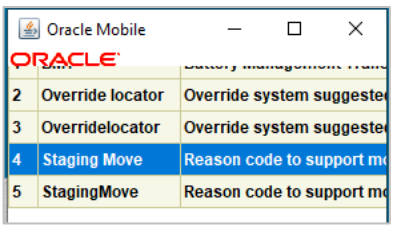
- Subinventory 'STL1' for TX4
- Subinventory 'STL6' for TX5
- Subinventory 'STG9' for TX4 (PTO Kitting only)

Whenever the 'Confirm' location is different from the suggested location

Oracle will show the screen with the 'Override Reason Codes'

Select 'Staging Move' as the Override Reason code

Click on 'Done'



- Continue with stage-moving all LPNs for the Delivery to ensure that the Consolidation Locator is available for a new Delivery again.
