1. Overview

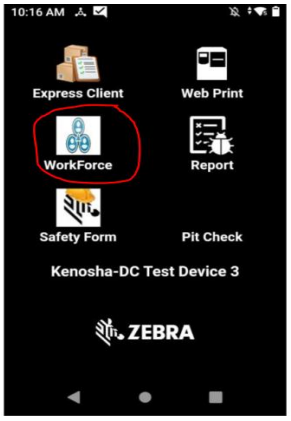
This document outlines the process for using the Zebra devices TC78 for ZERT communication purposes only.

2. ZERT Communication Devices

1. The ZERT member will be assigned a Zebra Communication Device.
2. The ZERT member will be assigned a holster.
   - ✓ The ZERT member is responsible for their own holster.
3. The device must be on you during your shift, not on your mobile station or desk.
4. The device works in/outside the facility and its surrounding areas.
5. The devices must be kept on the Zebra premises.
6. At the beginning of your shift, grab your designated device.
7. Sign in to the device; if asked for an activation code, select “Activate with ESN.”
8. Test the device to ensure it is working properly.
9. If there is an issue with the device, report it to IT promptly.
10. Please remember the device will be used only for ZERT communication.
11. At the end of your shift, return the device to the charging station; do not store it in lockers or take it home.

3. Signing in the Device

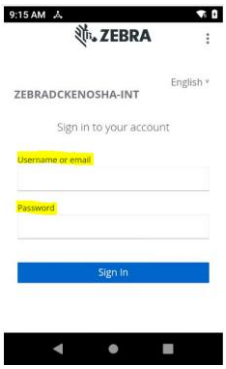
1. Select the Workforce Application on the Device home screen.



2. Sign in on the app using the credentials below.

   The username is the Employee ID (*located on the front of the badge*)

   Universal password: Zebrawelcome!2

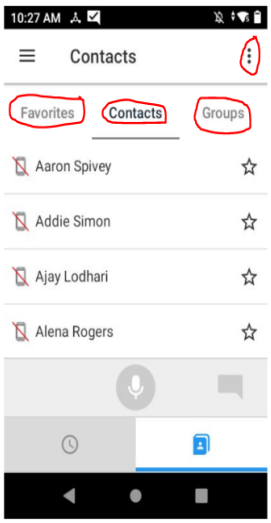


4. Application Navigation

1. Application dashboard contains:

   a. Favorites, Contacts and Groups

   b. The search function is the 3 dots in the top right-hand corner.



2. The text function can be used if the person is signed in on the device.

3. This icon indicates that the associate is not online.

4. Click on the contact and press the text icon; the text icon can be used on the Favorites, Contacts, and Groups tabs.

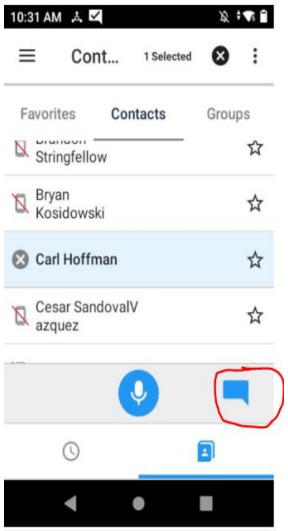
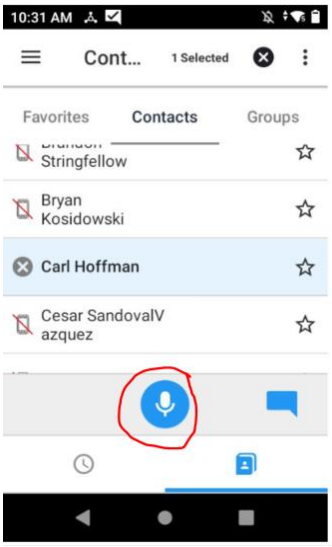
Verify revision number before use.



5. To use the push-to-talk function, select the contact you want and press and hold the microphone button to talk into the device.



6. The push-to-talk function can be used on tabs (Favorites, Contacts and Groups).
7. In the Groups tab, select the group and press the down arrow to see who is in the group.

   ✓ IT is the only personnel that can add or remove ZERT members from the ZERT group on the device.
